

Entomology Seminar Schedule Spring 2011

All seminars on Monday from 4:10-5:00 pm in the Genomics auditorium except seminar May 12th

Date	Speaker	Title	Host
March 28	No seminar. ESA Pacific Branch meeting		
April 4 <u>Med Ent candidate</u>	Marcelo Ramalho-Ortigao Dept. of Entomology Kansas State University	Of sand flies and Leishmania: midgut targets and beyond	Stouthamer (2-2422)
April 11 <u>Med Ent candidate</u>	Yoosook Lee Dept of Pathol., Microbiol.& Immunol. UC Davis	Population genomics of non-model organisms for vector-borne disease research	Stouthamer (2-2422)
April 18 <u>Med Ent candidate</u>	Bradley White Dept. Biological Sciences University of Notre Dame	Ecological genomics of the African malaria mosquito <i>Anopheles gambiae</i>	Stouthamer (2-2422)
April 25 <u>Urban Ent candidate</u>	James Austin BASF Corp., Research Triangle Park, NC	TBD	Mullens (2-5800)
May 2 <u>Urban Ent candidate</u>	Grze gorz Buczkowski Dept. of Entomology Purdue Univ.	Native "invasive" ants: a novel evolutionary trend in the age of global change?	Mullens (2-5800)
May 9 <u>Urban Ent candidate</u>	Alvaro Romero Dept. of Entomology NC State University	Translational research in urban entomology: moving research discoveries to solve re-emerging pest problems	Mullens (2-5800)
Thursday	Large Conference room 2-3 pm		Mullens (2-5800)
May 12 <u>Urban Ent candidate</u>	Dong-Hwan Choe Dept. of Environmental Sciences, Policy and Mgmt, Univ. of Calif., Berkeley	TBD	
May 16 <u>Boyce Lecture</u>	Jack Werren Dept. of Biology University of Rochester Rochester, NY	Using <i>Nasonia</i> (and its microbes) to reveal processes of adaptation and speciation	Stouthamer (2-2422)
May 23	TBD	TBD	
May 30	Holiday
