

Seminar Schedule

Date: January 3, 2010

Speaker: Ring Carde, University of California Riverside

Title: Wind-borne plumes and the navigation of insects flying to odor sources

Host: Richard Stouthamer (951)827- 2422

Date: January 10, 2010

Speaker: Geoff Morse, Department of Biology, University of San Diego

Title: Ecological and evolutionary diversification of the seed beetles

Host: Richard Stouthamer (951)827- 2422

Date: January 17, 2010

Holiday!

Date: January 24, 2010

Speaker: Joanna Chiu, Department of Entomology, UC Davis

Title: What fruit flies can teach us about circadian clocks: from design principles to implications for human health

Host: Ray (951) 827-5998

Date: January 31, 2010

Speaker: Doug Altshuler, Department of Biology, UCR

Title: The aerodynamics and motor control of animal flight through the lens of evolution.

Host: Alec Gerry (951) 827-7054

Date: February 7, 2010

Speaker: Thomas Unruh, USDA, Yakima, Washington

Title: Enhancing ecosystem services with companion plantings near orchards: rose and strawberry provide alternate host for a key leafroller parasitoid.

Host: Richard Stouthamer (951)827- 2422

Date: February 14, 2010

Speaker: Bob Lane, Department of Environ. Sci. Policy and Management, UC Berkeley

Title: Factors Contributing to the Low Incidence of Lyme Disease in California

Host: Alec Gerry (951) 827-7054

Date: February 21, 2010

Holiday!

Date: February 28, 2010

Speaker: Tim Paine, Department of Entomology, UCR

Title: Invasive Insects in California Urban Forests

Host: Richard Stouthamer (951)827- 2422

Date: March 7, 2010

Speaker: Rodrigo Almeida, Department of Environ. Sci. Policy and Management, UC Berkeley

Title: Vector transmission of *Xyella fastidiosa*

Host: Matt Daugherty, (951) 827-2246
